EDUCATION

Ewing Christian College   **Prayagraj**
Bachelor of Science in Computer Application (GPA: 7.1)   **August 18 – June 21**
Maharishi Vidya Mandir Sr. Sec. School   **Fatehpur**
Intermediate (Percentage: 85.9%)   **April 17 – March 18**

EXPERIENCE

Tevatron Technologies Pvt. Ltd. | [**Certificate**]   **Remote**
Training Intern   **February 23 – March 23**

- A **Restaurant Billing System** project under experienced mentor in a team of 4 using programming language **Python**.
- Received appraisal on the basis of the hard work and efforts on the project in order to understand the core functionalities better and successfully reducing time on billing and payment services by 50%.

PROJECTS

TaskBuddy – Task Management for Lazy Genius ⤴   **April 25 – May 25**
Frameworks: React, Tailwind CSS, Supabase, Framer Motion,

- Developed a quadrant-based task management application inspired by the **Eisenhower Matrix**, enabling users to categorize tasks by urgency and importance.
- Implemented real-time data synchronization with Supabase and enhanced user engagement through smooth animations using Framer Motion, resulting in a 30% increase in user retention.

ThreadScape – E-commerce Management System (EMS) ⤴   **February 25 – March 25**
Frameworks: MongoDB, Express, React, Node.js, Tailwind CSS, Redux, Stripe, Framer-motion, Axios

- Integrated secure payment processing into the fashion-focused E-commerce Management System (EMS), decreasing fraudulent transactions by 15% and solidifying consumer trust in the platform.
- Developed key features including Admin Dashboard, product catalog management, an intuitive user interface, and 100% secure payment processing to provide a seamless and secure shopping experience for fashion products.

Chatteristic – Real-Time Chat App ⤴   **March 24 – April 24**
Frameworks: MongoDB, Express, React, Node.js, React Query, Zustand, Cloudinary, Tailwind CSS, Daisy UI

- Built a real-time messaging platform enabling users to instantly communicate & share multimedia content, ensuring 99% message delivery reliability.
- Integrated AI-driven features that leverage natural language processing (NLP) algorithms to ensure quick, dynamic responses with an average time of less than 5s, enhancing user engagement and satisfaction.

SKILLS SUMMARY

- **Programming Languages –** Python, SQL, JavaScript, C
- **Frontend Web Development –** HTML, CSS, React, Tailwind CSS
- **Backend Web Development –** MongoDB, Postgres, Express.js, Node.js, JWT
- **State and API Management –** Redux-Toolkit, Context API, Zustand, Axios, React Query
- **Development Tools –** Postman, Vercel, REST APIs, MongoDB Atlas, NPM, VS Code
- **Version Control System –** Git and GitHub

CERTIFICATES

JavaScript Programming – Euan | [**Certificate**]   **January 25**

- Acquired proficiency in JavaScript fundamentals, including variables, functions, arrays, and DOM manipulation, enhancing web development skills.

Git for Beginners – Thomas Claudius Huber | [**Certificate**]   **December 24**

- Developed a solid understanding of Git version control, including repository management, branching, and collaboration workflows to streamline software development.
